(July, 2017) - sbe, a leading privately-held lifestyle hospitality company, will open its first hotel in the Middle East with the launch of Mondrian Doha, Qatar on October 1st, 2017, becoming Qatar's and the region's most luxurious lifestyle hospitality opening.

The lavish 270-room hotel has been designed in collaboration with world-renowned Dutch designer, Marcel Wanders, along with South West Architecture - the architectural company of record for Mondrian Doha, responsible for the design of the building. The hotel's opulent Opal Bridal Suite and remarkable 2,000m² Moonstone Ballroom make it an ideal option for lavish weddings, whilst honeymooners can indulge in the property's exceptional culinary and spa offerings.

Sensitively rooted in local Arabic culture, Mondrian Doha will express tradition with a modern point of view throughout. The hotel is the embodiment of Arabia through a modern lens, which in turn mirrors the modern reality of Doha - the Qatari capital that has grown immeasurably over the past few years, transforming itself from a modest fishing village into a global visionary capital. Mondrian Doha is symbolic of this tremendous growth and Qatar's future path.

The hotel will incorporate bespoke Marcel Wanders design features with influences from the beauty of local patterns, ornate Arabic writing and historic souks. Standout, memorable elements include giant columns with golden eggs, a 'tree of life' comprised of flowers, falcon video art, giant shisha, patterned carpets, ornate stained glass and intricate mosaic tiling.

Astonishing and stunning, the Opal Bridal Suite is a true gem. Brides-to-be and honeymooners enter through a hallway of crystal mirrors and chandeliers. The suite's four rooms include a dressing room and make-up room with a beautifully designed white-embellished mirror, a bridesmaid's bedroom, spacious living room, as well as a walk-through closet and an en-suite

master bedroom featuring a luxurious four poster bed. The suite's guests can indulge in a soaking bath while taking in views of the Lusail City, the artificial island "Pearl" and West Bay, or de-stress in the hot-sauna crafted from Scandinavian wood.

For the grandest of entrances, the 24k gold-sculpted caged elevator descends right from the suite to open directly into the Moonstone Ballroom - creating a dramatic moment that is truly one to remember. Using creative technology, the expansive space can be adapted to suit every wedding theme. Three layers of full-length curtains can be used to transform the atmosphere, with champagne gold for prestige and luxury, rich red maroon for passion and life, and classic royal blue for peace and comfort. Projections onto the curtains and the central stage further personalise the space. Crystal chandeliers, ornate ceiling domes and signature columns create a sense of splendour.

Wedding guests can choose from five distinctive room categories including penthouse suites, studio suites, one and two bedroom suites and a range of standard guestrooms - all of which share the universal design details of Swarovski crystal chandeliers and sumptuous bespoke furniture in hues to mirror the desert.

Mondrian Doha will be a culinary emporium; with eight restaurants and bars - some of which are entirely new to Qatar - offering un-paralleled experiences in Doha. Middle Eastern cuisine is at the heart of Mondrian Doha's food and beverage offering along with internationally renowned chefs including master chef and restaurateur Wolfgang Puck and Japanese chef Masaharu Morimoto.

Sam Nazarian, founder & CEO, sbe commented: "We are delighted to open our first hotel in the Middle East in Doha, Qatar which is one of the most dynamic cities in the region. Mondrian Doha will be an incredible destination for anyone planning an event in the city, be it a special occasion such as a wedding, or a formal business function."

He continued: "Following our acquisition of Morgans Hotel Group, sbe is now unrivalled with its unique platform, offering experiences encompassing all areas of hospitality. Mondrian Doha represents exactly this - you need never leave this luxurious destination hotel as we have all your desires catered to. That said, the city outside is remarkable - a thriving artistic centre, brimming with innovation and possibilities. I'm incredibly proud that sbe is partnering with such an admired group of people at South West Architecture and Toscana Ventures, who are leading figures in the region."

The essence of One Thousand and One Nights, a collection of Middle Eastern folk tales and stories, has also influenced the design of the space, which is detailed-orientated and complex, with a number of facets, levels and layers. Structurally, the building of Mondrian Doha is shaped like a falcon, with many references to the national bird of Qatar also found inside; from paintings and portraits to falcon headpieces and ornaments. The location of the hotel next to Lagoon Mall in the West Bay area also acts as a gateway to the new Lusail City development, one of the world's most visionary single developments and a true representation of Modern Qatar.

A fantasy-like environment, true to the Marcel Wanders design and the Mondrian ethos, is waiting to be explored by guests. Each day at Mondrian Doha will offer a new discovery and create a new memory - with enlightening scenes from the iconic lobby arrival through to the mesmerising stained glass dome skylight on the 27th floor. The striking, custom-designed four-level high spiral staircase acts as a focal point of the atrium and leads guests up to a viewing platform. This awe-inspiring sculptural piece gives the impression that the stairs extend to the sky, but provides a standing point from which to capture the moment on camera.

Marcel Wanders commented: "Stories connect us to our history, our culture and to each other. Stepping into Mondrian Doha begins the first chapter of a wonderful story that unfolds around every turn. Conceptually, we have married local culture with a modern design aesthetic. While many themes are collectively layered throughout the hotel, each individual space tells its own tale. Guests may therefore have many different experiences and weave for themselves a collection of stories to share."

Additional hotel facilities will include an entertainment floor complete with nightclub, rooftop pool and skybar, and an exclusive spa.

Room rates at Mondrian Doha will start from \$240 (£190).

About Marcel Wanders

Marcel Wanders is a leading product and interior design studio located in the creative capital of Amsterdam, with over 1,900 + iconic product and interior design experiences all around the globe for private clients and premium brands such as Alessi, Baccarat, Bisazza, Christofle, Kosé Corporation/Cosme Decorté, Flos, KLM, Hyatt Hotels Corporation, LH&E Group, Louis Vuitton, Miramar Group, sbe, Puma, Swarovski among scores of others. Under Marcel Wanders' creative leadership and creative direction, and with the support of Gabriele Chiave as creative director since 2014, Marcel Wanders employs 52 design and communication experts. In an environment where everyone perceives, breathes and lives creativity across a multitude of projects from in-flight tableware to cosmetics packaging to hospitality interiors. Marcel Wanders' 27 years of design are celebrated in some of the most renowned art and design museums, including Centre Pompidou FR; Cooper-Hewitt National Design Museum, US; Metropolitan Museum of Art, US; Museum of Arts and Design, New York, US; Museum of Modern Art, US; Pinakothek der Moderne, Munich, DE; Stedelijk Museum, Amsterdam, NL; Oita Prefectural Art Museum, JP among others. Regarded by many as an anomaly in the design world, Marcel Wanders has made it his mission to "create an environment of love, live with passion and make our most exciting dreams come true." This work excites, provokes, and polarises, but never fails to surprise for its ingenuity, daring and singular quest to uplift the human spirit, and entertain. Marcel Wanders' chief concern is bringing the human touch back to design, ushering in what he calls design's 'new age;' in which designer, craftsman and user are reunited. In his process, Marcel Wanders defies design dogma, preferring instead of focus on holistic solutions rather than the technocratic. In this universe, the coldness of industrialism is replaced instead by the poetry, fantasy and romance of different ages, vividly brought to life in the contemporary moment. www.marcelwanders.com
