MARCEL WANDERS STUDIO PRESENTS HARCOURT ANNIVERSARY COLLECTION

Harcourt Set In Stone

To capture the rich history of the Harcourt glass as a keepsake for generations to come, the icon has been set in stone, literally. Magnifying the pure yet powerful silhouette of the glass in the finest Italian black and white marble. A challenging exercise that required the unrivaled expertise and craftsmanship of the 'Peletti & Simonetti' workshop in Tuscany to match every cut and curve in marble. An exceptional set of glasses that symbolises all of Harcourt's features: audacity, passion, and excellent know-how.

Harcourt Proost

With Harcourt Proost one of the most beloved drinks in the world can now be enjoyed in style. Resting on the signature hexagonal foot, the soft, curved lines of the glass fully embrace any craft beer, amplifying its taste, aroma and aesthetic. The moment light catches the glass's crystalline structure, beer turns into pure gold, elevating the drinking experience to a new level. Cheers! - or as the Dutch say: "Proost!"

Harcourt Zero Degrees

Dressed for the occasion, this set of two limited edition Harcourt glasses has been adorned with a beautifully etched embellishment that gracefully unfolds from the hexagonal foot to the flat cuts of the bowl. Symbolising whimsical flowers born from crystal and frozen in time, both glasses are wrapped in a unique pattern: one illustrating a playful ensemble of organic, free-flowing elements, the other boasting a fascinating, geometric grid inspired by Baccarat's characteristic crystal octagon.

Harcourt Flutissimo Vase

Because a celebration can't do without some fine champagne and beautiful flowers, the original Harcourt 1841 champagne flute has been reimagined into a spectacular bubbly vase with elegant silhouette. The grand, hand-blown crystal flute perches on a white marble base that is perfectly sculptured in the signature Harcourt stem and hexagonal foot. A marriage of the past and present.

Harcourt Mirage

A true masterpiece designed to make an entrance and challenge the odds. Measuring a stellar 1,20 metres, the Harcourt Mirage combines two vases together to be one. Not only physically but also in style: blending the aesthetics of the New Antique Vases with the codes of Harcourt as illustrated by its flattened cuts and the emblematic hexagonal foot at its heart. A vision of beauty that will leave one wondering.
